

## Beekeeper PRESENTATIONS

Looking after the bees is an important job, but we believe that the most important part of our job is education! What better way to learn about bees and their keepers then to have a beekeeper teach you.

We have had the pleasure of speaking at many different venues; Farm Fresh Food Fest (pictured above), Wye Marsh Wildlife Center, The Villa.

We made presentations at local schools, clubs and even managed to get on tv a couple times ("I Love My Job" TVOkids)!

Educating the public about the importance of our honey bees and native bees is just one aspect of the large web of knowledge associated with beekeeping. We can accommodate all ages and can even have your presentation done in French.

Book with us today, we look forward to hearing from you!
